Steve,

There is a conference this month including USACE, TWDB & EPA; I will be discussing USACE support for EPA at the San Jacinto Site & wondered if you had anything about broader USACE support for EPA – maybe a slide or a few factoids about their work for the sediment group?

Thanks,

John, I have given the draft FS and other info a quick review. My comments are attached. If you or anyone wants to discuss these further, please let me know. I will be out on annual leave and travel for 2 weeks starting next Tuesday, but am in all this week.
